Company Profile

Premier Electrical Engineers & Contractors Ltd are a well established, experienced electrical contracting company who undertake all aspects of electrical contracting work specialising in commercial and industrial installations, electrical testing and the design of lighting installations.

Premier is focused very much to the customers' requirements. It is our policy to utilise directly employed personnel and the values of our organisation ensure that that we receive the majority of our projects on a repeat order basis.

Premier demonstrate the ability to manage large contracts and this has been significant ensuring our long term partnership agreements

We are a fully accredited member of the National Inspection Council for Electrical Installation Contracting (NICEIC) and pride ourselves on the quality of our workmanship and the service we offer.

We have a wide client base and undertake electrical installation projects up to the value of £1 Million.

Our present contracts include commercial, industrial, office and warehouse refurbishments throughout the United Kingdom and Ireland.

We have a comprehensive company Health & Safety Policy and provide a detailed Method Statement and Risk Assessments prior to undertaking any projects.

Our employers' liability insurance limit of indemnity is £10,000,000.00 and our public liability insurance limit of indemnity is £2,000,000.00.

Quality Management

Within the Premier organisation Total Quality Management is a cultural philosophy, a way of working and a way of thinking, which is based on a strong commitment to customer satisfaction and continuous improvement.

Premier's Quality Management approach encompasses:

- Emphasis on leadership style and organisation culture
- Aspiring to achieve excellence in all aspects of business
- Quality is defined as satisfying the needs and expectations of the customers
- Success is measured through improvements in customer satisfaction, performance and business results

Total Quality Management within Premier begins with the director, Mr Paul Gaskell and extends to every person within the organisation. Highly committed senior management lead the way and provide support at all levels within the organisation.

Premier is a client focused organisation and in recognition of the evolving and often diverse needs of individual clients Premier places great emphasis on the preparation of Project Quality Plans which are tailored to meet specific project requirements.

Health & Safety Policy Statement

It is the policy of Premier Electrical Engineers & Contractors Ltd, approved by its directors, that operations carried out by the Company are in accordance with the requirements of the Health and Safety at Work Act 1974 and other regulations, as detailed within the company health and safety policy, both in the spirit of these acts and their legal obligations. The Company accepts its responsibilities towards its employees and any other person who may be affected by the work undertaken by the Company.

Mr Paul Gaskell has been nominated as the director responsible for implementing this policy and his duties, and that of all employees, are detailed in the Company's safety manual.

If incidents are to be avoided, good working practices will be required. Therefore all staff shall familiarise themselves with their duties as detailed in the safety manual. All employees have a part to play if high standards are to be achieved and maintained.

The Company requests that all employees take a pro-active role in improving health and safety performance through regular site meetings on larger contracts, or through the designated contract manager on smaller projects, and invite suggestions on how methods of work can be improved.

Mr Paul Gaskell, who will be available to advise all employees on matters relating to health and safety, will monitor the operation of this policy.

A full copy of our health and safety policy is available on request.

Environmental Policy

Premier keep all employees informed of all legislation, regulations and codes of practice with regards to environmental matters relevant to operations. Premier are committed to ensuring that personnel are aware and adequately instructed in the requirement of legislation and take all other reasonable actions to ensure compliance.

Premier takes all reasonable precautions to prevent environmental damage. It will at all times endeavour to keep clean and tidy sites and to avoid pollution of the air, ground or water by noise, fumes dust or the disposal of construction materials.

Wherever viable and consistent with its clients' instructions we use materials and products from sustainable sources and that are re-usable or re-cycable.

As a company we make every effort to conserve the use of materials and of energy and where viable collect waste materials for re-cycling.
